

Meeting Spaces

To assist your selection of a meeting room for your event please consider the physical needs of the event:

- The traffic flow
- The speakers placement
- Audio-visual needs
- Food/Beverage Service accessibility
- Restroom Accessibility
- Handicapped Facilities
- External Noise

It is preferable to choose a room that is small for your group than one that is too large or your group may look "lost."

Make sure you have enough time available to set up your meeting to avoid a tight schedule and lesson anxiety.

Let us make recommendations for your seating plans for the rooms you have booked that meets your program needs.

Meeting Room	Usable Sq. Footage	Room Dimensions	Theatre Style	Classroom Style	U-Shape	Conference Style	Banquet Style	Reception Style
